

## Doctoral Fellowships

### Call for applications

The IRTG *Moduli and Automorphic Forms: Arithmetic and Geometric Aspects* is offering several doctoral fellowships in Berlin **starting September 1, 2012, or later**.

Candidates should have obtained (or be about to obtain) a Diploma or M.Sc. degree in mathematics with results significantly above average, and intend to pursue graduate studies in mathematics within the research areas of the IRTG. The IRTG offers, besides the opportunity to do supervised research, a rich graduate program consisting of graduate courses, seminars, guest lectures, and research stays in Amsterdam / Leiden. Fellows are required to actively participate in this program. The IRTG is a certified unit of the Berlin wide graduate school of mathematics, [BMS](#), funded in the framework of the German Excellence Initiative. Scholarships are tax-free and carry a monthly stipend of up to EUR 1468.– plus family allowance. They are initially awarded for two years, subject to renewal for a third year. All graduate students will be expected to work for a Ph.D. degree at one of the participating universities in Berlin.

Applications should provide the usual documents:

- letter of application
- curriculum vitae
- transcript of university degrees
- Diploma or M.Sc. thesis and relevant publications if available
- statement of purpose sketching the applicants research interests
- two letters of recommendation (to be sent by the recommenders)

The IRTG particularly encourages the application of female candidates. Disabled persons will be given preferential treatment in case of otherwise equal qualification.

**DEADLINE: Applications are requested at the latest by August 20, 2012**

**Applications should be addressed to:**

[Prof. Dr. Jürg Kramer](#)  
Humboldt-Universität zu Berlin  
Department of Mathematics  
Unter den Linden 6  
D-10099 Berlin, Germany

Preferably in one pdf-document via e-mail: [thomma@math.hu-berlin.de](mailto:thomma@math.hu-berlin.de)
